Important Notes for Students

- You need to follow your study plan given in your handbook (**Section 1 of the Handbook on the Diploma Hub on Moodle**) to choose your courses. If you are not sure about your specialisation, please email us at DiplomaEnquiry@unswcollege.edu.au as soon as possible and we will be able to assist you.
- Please check your specialisation and your stream to enrol in the correct courses. Choosing an incorrect course could mean that this course will not count towards your Diploma. **If you fail any course in Term 2 2024** you need to update your enrolment after the results and repeat the course that you have failed if it's offered.
- If you don't follow the Study Plan**, you may not be able to enrol next term as you will not be able to create a clash free timetable. The system will also stop you enrolling in a course if you don't fulfil the pre-requisite and co-requisite requirements. **Please check the pre-requisite and co-requisite for the courses from the Diploma Handbook before you enrol.**
- If a course is full, you can still enrol by joining the waitlist. We will review your request and update it in MyUNSW. If we can't enrol you in that course we will let you know to choose an alternative course.
- You will be able to view your timetable by clicking on "Class timetable" (see below) after you have completed class registration for all courses. **Please check your timetable every week as some weeks might have more or less activities for a course.**
